An Introduction to Memory Loss

People tend to use the terms “**Dementia**” and “**Alzheimer’s**” interchangeably. However, these two terms do NOT have the same meaning. “**Dementia**” is a general term for memory loss and other intellectual abilities serious enough to interfere with daily life. Dementia is caused by various diseases and conditions that result in damaged brain cells. Dementia is not a disease. Dementia is a set of symptoms that result in a disorder of the brain. Dementia is not a diagnosis.

“**Alzheimer’s Disease**” is a serious brain disorder that impacts daily living through memory loss and cognitive changes. Alzheimer’s is a degenerative disorder, progressing from mild forgetfulness to widespread neurological impairment and ultimately death. Chemical and structural changes in the brain gradually destroy the ability to create, remember, learn, reason, and relate to others. As critical brain cells die, drastic personality loss occurs and body systems fail.

Alzheimer’s disease is the most common form of dementia. Alzheimer’s disease accounts for 60 to 70% of all cases of dementia. There are more than 100+ medical disorders that can cause dementia. Some of these causes are reversible and others are not. Other forms of dementia include: Mild cognitive impairment (MCI), Vascular Dementia, Mixed Dementia, Dementia with Lewy Bodies, Parkinson’s disease, Frontotemporal Dementia, Creutzfeldt-Jakob disease (CJD), Normal Pressure Hydrocephalus, Huntington’s disease, and Wernicke-Korsakoff Syndrome.

Memory loss is a common symptom of dementia. Although not all memory loss indicates dementia and/or Alzheimer’s. For most people, recognition of memory problems in themselves or a loved one brings fear of Alzheimer’s. Age related brain shrinkage does produce normal changes in processing speed, attention, and short term memory, creating so-called “senior moments.” Understanding significance begins with knowing what is “normal.”

Normal Aging	Dementia Symptoms
Can’t find your car keys	Routinely place important items in odd places
Search for casual names & words	Forget names of family and common objects
Forget to write down a check	Can no longer manage a checkbook
Cancel a date with friends	Withdraw from usual interests

Significant cognitive and memory losses are **not** symptoms of normal aging. Most people over the age of 65 experience a level of forgetfulness that is merely inconvenient.

Research shows that Alzheimer's disease causes more worry than any other condition for Americans over the age of 55. According to the Alzheimer's Association, there are

Ten Warning Signs of Alzheimer's:

Memory loss	Difficulty performing familiar tasks
Problems with language	Disorientation to time and place
Poor or decreased judgment	Problems with abstract thinking
Misplacing things	Changes in mood or behavior
Changes in personality	Loss of initiative

Staggering Statistics

- Michigan has seen a 96% increase in deaths from Alzheimer's since 2000.
- Almost 2/3 of those with Alzheimer's disease (3.3 million) are women.
- Alzheimer's kills more people than breast and prostate cancers combined.
- 26 million people worldwide have some form of dementia.
- Among all those living with Alzheimer's, only about half have been diagnosed.
- Of those diagnosed, only about half are aware of the diagnosis.
- Every 66 seconds, someone in America develops Alzheimer's. By 2050, this number climbs to every 33 seconds!
- Alzheimer's is the 5th leading cause of death for Americans aged 65+.
- Alzheimer's is the only cause of death among the top 10 in America that cannot be prevented, cured, or even slowed down.
- 70% of people with Alzheimer's are living in their own homes.
- In 2016, the cost to care for those with Alzheimer's is estimated to be \$236 billion. Unless something is done, that will rise to \$1.1 trillion by 2050.
- Nearly 1 in every 3 seniors who dies has Alzheimer's or another Dementia.

For more information, view the **2016 Alzheimer's disease Facts and Figures report at: www.alz.org/facts

Adult Day Care

Adult Day Care (ADC) allows caregivers to continue working outside the home, receive help with the physical care of a loved one, avoid the guilt of placing a loved one in an institution, and have respite from what is often a 24/7 responsibility. The care receiver also benefits from adult day care. He or she is able to remain at home with family, but does not require 24-hour care from the primary caregiver. ADC participants also have an opportunity to interact socially with peers and to share in stimulating & enriching activities.

A typical day at an ADC center could include: supervised care; small group or individual activities such as reminiscence, sensory stimulation, music and art, nutritious meals, personal care, and even transportation. It is highly recommended that you do your research. Visit the center. Some centers are dementia specific, which means that they provide services exclusively to that population; while other centers serve a broader population.

Bickford Cottage of Saginaw Township	(989) 799-9600
Community Village	(989) 792-5442
Edgewood Assisted Living Center	(989) 497-9970
Golden Horizons Adult Day Care Center	(989) 892-6644
Great Lakes P.A.C.E.	(989) 272-7601
Guardian Angel Respite & Day Services	(989) 753-0824
Seasons Adult Day Health Services	(989) 633-3708

Available funding: At present, Medicare does not cover ADC costs. The **Medicaid Waiver** program has the ability to cover ADC costs. Veterans should contact their local **VA Hospital (989-497-2500)**, as those with a service connection may be eligible for funding. Some of the ADC's in our area offer need-based scholarships. Others may offer a sliding-scale fee based on income. Individuals with long-term care insurance may also have an ADC benefit available to them.

Adult Foster Care Homes

Adult Foster Care (AFC) homes offer 24-hour personal care, protection, and supervision for individuals who cannot live alone but who do not need continuous nursing care. AFC homes are residential facilities which offer room and board, supervision, assistance with personal care, meal preparation, toileting, and medications. There are AFC homes that exclusively care for individuals with memory loss. Other homes provide general assistance for any adult needing assistance.

It is important to remember that most AFC homes are privately owned and operated. In order to ensure that certain standards are followed, AFC homes are licensed and regulated by the Michigan Department of Consumer and Industry Services. There are over 100 licensed AFC homes in Saginaw County.

If you are interested in more information about AFC homes contact:

Michigan Department of Licensing & Regulatory Affairs

525 West Ottawa

P.O. Box 30004

Lansing, MI 48909

(517) 373-1820 www.michigan.gov/LARA

Then search Adult Foster Care Homes

Ask to speak to the "Housing Coordinator"

(800) 858-1637

*Adult Foster Care **complaints** may be made to the **licensing agent** by calling 1-866-856-0126.

Dementia Care Homes

These facilities, often called “Memory Homes” specialize in the care of individuals with Alzheimer’s disease and related Dementias. They are often the perfect solution for families seeking a safe, supervised and caring environment for their loved one with memory loss. Trained professionals assist residents 24 hours a day with their activities of daily living, meals, and social activities.

Generally these homes are paid for “out of pocket.” However, some Long Term Care policies, the Medicaid Waiver program and/or VA Aid and Attendance may help to pay some of the expense.

Diagnosis and Treatment

Just like the rest of our bodies, our brains change as we age. Most of us eventually notice some slowed thinking and occasional problems with remembering certain things. However, serious memory loss, confusion and other major changes in the way our minds work may be a sign that brain cells are failing. The most common symptom of Alzheimer's disease is difficulty remembering new information. This is because the disruption of brain cells usually begins in regions involved in learning. As damage spreads throughout the brain, individuals experience other difficulties such as disorientation, mood and behavior changes, confusion, suspicions, difficulty with speech, walking, and swallowing.

Saying that someone *has* dementia does not offer a reason as to *why* they have these symptoms. Early diagnosis, and, more importantly, proper diagnosis is imperative to treatment. There is no single test to determine whether memory loss is Alzheimer's disease. A skilled general practitioner, neurologist, or geriatrician can make a reasonable diagnosis by excluding other causes of the symptoms. Certain conditions can cause reversible dementias, sometimes called "pseudo dementias". Examples include: medication interactions, renal or liver failure, depression, stress, vision or hearing loss, vitamin deficiencies, thyroid problems, and infections (UTI).

Once all other possibilities are ruled out, your doctor will begin the diagnosis by gathering the family history, a physical examination, neurological examination, cognitive testing, brain scans, laboratory tests, and a psychiatric evaluation. Proper diagnosis has become more accurate and specialists are able to analyze the large amount of data collected and determine if there is a problem, the severity, and the cause. Ninety percent of what we know about Alzheimer's has been discovered in the last 15 years.

Although there is no cure, Alzheimer's medications can temporarily slow the worsening of symptoms and improve quality of life for those with Alzheimer's and their loved ones. The Food and Drug Administration (FDA) has approved four medications to treat the symptoms of Alzheimer's: Aricept, Razadyne, Namenda, and Exelon. There is worldwide effort to find better treatments, delay its onset, and even prevent it all together.

To search for Medicare Physicians and other Clinicians in your area based on location; compare the quality of care they provide, and their staffing: go to "www.medicare.gov" then click on "*Physician Compare*".

Durable Medical Equipment

Durable Medical Equipment (DME) is any medical equipment used in the home to aid in a better quality of living. It is a benefit included in most insurance. Medicare Part B (medical insurance) covers DME that your doctor prescribes. In certain instances, the following items may be covered by Medicare Part B:

Blood sugar monitors	Canes	Bedside commodes
Hospital beds	Nebulizers	Walkers
Prosthetic devices	Wheel chairs	Oxygen

The most commonly needed DME is bathroom safety equipment such as shower chairs, hand held showers, high rise toilet seats, and grab bars. Unfortunately, NONE of these items are covered under Medicare Part B, and are obtained strictly as a private pay item. The following companies are available to provide DME to you under your insurance and/or out-of-pocket. Each company listed can check your insurance coverage and tell you what items are, and are not covered; and whether they bill insurance or not.

Great Lakes PACE

Great Lakes PACE is an alternative long-term care option that supports those over 55 years of age to live at home for as long as possible. PACE offers home for individuals and caregivers who are struggling with long-term healthcare needs and wish to avoid nursing home placement. PACE is a national healthcare model funded by Medicare and Medicaid. PACE provides all-inclusive services that have been effective to facilitate seniors with living safe in their communities. Most care is done at the on-site clinic. A team of professionals will assess and determine services based on the medical need of each individual. We provide activities during the day that offer opportunities to connect and socialize with others.

What services are provided?

Great Lakes PACE offers all Medicaid and Medicare covered services, in addition to services not normally covered through traditional insurance. Services provided may include, but are not limited to the following:

Activities and exercise

Home Care Services

Medical Supplies

Nutritional Counseling

Onsite Adult Day Health

Pharmacy/medications

Social Services

Caregiver/Family Support Services

Inpatient Hospital & Nursing Home

Nursing Care

Occupational Therapy

On-site physician/nurse practitioner

Physical Therapy

Transportation Services

*Other than emergency services, all services must be furnished or authorized by Great Lakes PACE. Participants may be responsible for the costs of unauthorized or out-of-network PACE program agreement services.

Contact Great Lakes PACE:

(844) 445-7223

(989) 272-7610

www.greatlakespace.org

Great Lakes PACE

3378 Fashion Square Blvd.

Saginaw, MI 48603

Homes for the Aged

Homes for the Aged (HFA) are facilities with at least 21 residents, offering room and board, supervision and personal care to people over the age of 60 who need assistance but do not require continuous nursing care. These facilities must be licensed by the state of Michigan. Generally, these facilities are paid for “out of pocket”. However, some long term care policies, VA programs, and/or Medicaid programs may cover some of the expense.

Bavarian Comfort Care	(989) 777-7776
Bickford Cottage of Saginaw Township	(989) 799-9600
Community Village	(989) 792-5442

Shields Comfort Care	(989) 607-0003
Union Court Assisted Living	(989) 865-8100
Wellspring Lutheran Services Saginaw	(989) 921-0083

To review Homes for the Aged, go to:

www.michigan.gov/dhs

Then go to “*Doing business with DHS*”

Then go to “*Licensing*”

Then go to “*Online Look ups*” and click on “*Search for Adult Foster Care and Homes For the Aged facilities*”

You will then see the licensed facilities in the area or zip code of your choice.

***Home for the Aged complaints** may be made to the licensing agent by calling **(866) 856-0126**.

Hospice

Hospice is a special kind of care designed for someone with a terminal illness. Hospice care lets people continue to live alert, pain-controlled lives so that they can maintain their dignity and spend their last days in comfort. To be eligible for hospice care, the patient must have a life-limiting illness, be aware of the prognosis, and choose hospice as the desired plan of care. The primary services provided by hospice are: medical care, medical equipment and supplies, medications to control the pain and other symptoms of the life limiting illness, limited in patient care (both acute care & respite care), in home visits by hospice staff, consulting physicians, volunteers, and bereavement services. Hospice care is provided wherever the person lives. Most hospice patients will receive care in their own home; however hospice is available wherever the person resides.

A&D Home and Hospice	(989) 321-9908
American Hospice	(989) 791-4575
Compassus Hospice & Palliative Care	(989) 414-2103

When managing a terminal illness at home just isn't possible, a "**Hospice Home**" provides the next best option – a compassionate home away from home with 24 hour Hospice care. In our area, there are currently three facilities:

Brian's House (Compassus)	(989) 414-2103
James E. Cartwright Care Center	(800) VNA-4YOU
Toni & Trish House	(989) 662-6400

To search for Hospice in your area based on location, compare the quality of care they provide, and their staffing: go to "www.medicare.gov" then click on "**Hospice Compare**".

In Home Care (Private Duty)

It may not come as much of a shock that nearly 90% of people over the age of 65 want to remain living in their own homes for as long as possible, according to a survey by AARP. It is believed that 70% of people with Dementia are living in their own homes. As the disease progresses, they will gradually require assistance with their activities of daily living in order to remain safely in their homes. In home caregivers can assist with daily tasks such as personal care, dressing and grooming, toileting, meal preparation, medication reminders, laundry, housekeeping, shopping, errands, and transportation.

Whether you are looking for care to come in for a couple hours a day, or a caregiver who will provide 24 hour care, we strongly urge you to do your research, interview each and every person, and always check references.

Legal Planning

Legal planning should take place as soon as possible. An attorney who specializes in elder care law can explain issues related to Durable Power of Attorney for Health Care and Finances, Guardianships, Conservatorships, Wills, Trusts, and Estate Planning. The following attorneys specialize in Elder Law:

Geraldine Anne Brown	(989) 791-8181
Chalgian & Tripp Law Offices, PLLC	(989) 272-7779
Fisher-Smith and Bovill, P.C.	(989) 792-9641
Norman S. Harrison	(989) 790-7177
Mahlberg, Brandt, Gilbert, & Thomas	(989) 799-2111
Walter Martin, Jr.	(989) 793-2525
Swartz and Wilson, P.L.C.	(989) 793-7000
Douglas Taylor	(989) 799-2545
Carol M. Thomas	(989) 793-2300
Zolton Law Offices	(989) 792-1111

Lakeshore Legal Aid - Offers free legal help to seniors age 60 and over. Appointments are held at the Saginaw County Commission on Aging. Assistance includes: Guardianships and Conservatorships; Power of Attorney for Health Care documents, Wills, Deeds, Social Security, Medicare, Medicaid, & SSI issues; Housing and Landlord / Tenant matters; Consumer fraud and scams; as well as Debtor/creditor problems. If you have a non-urgent matter and would like to schedule an in-person meeting with an attorney, call **(866) 552-2889**.

Free legal advice: To speak to an attorney *immediately* call the **Council and Advocacy Law line** at: **(888) 783-8190**.

MI Choice

Medicaid Home and Community Based Waiver

The waiver program is a long term care program that provides an array of home-based services for people 18 years of age and older who are medically eligible for nursing home care. It is designed to help frail elderly and disabled persons avoid unnecessary or premature nursing home care and to support family and private caregivers. *This does not include ongoing 24-hour care nor does it replace informal support.* This is a supplement to family, friends, neighbors, and other caregivers that make up the informal support system. The waiver team, a Registered Nurse and a Licensed Social Worker, conducts a comprehensive assessment, develops a plan of care and arranges for appropriate supportive services to be put in place. The team regularly monitors the person's needs.

Waiver participants must be aged (65 or older), or 18 and older and disabled. Through this program, eligible adults who meet income and asset criteria can receive Medicaid covered services like those provided by nursing homes, but can stay in their own home or another residential setting. They can receive the basic services that Michigan Medicaid covers, and one or more of the following services unique to the waiver:

Adult Daycare

Counseling Services

Homemaker

Out of Home Respite Care

Personal Emergency Response System

Environmental Accessibility Adaptations

Medical Equipment and Supplies

Chore Services

Home Delivered Meals

In Home Respite Care

Personal Care

Private Duty Nursing

Non-Medical Specialized

Transportation

There are two sites in Saginaw County who administer this program.

Please call for more information, or to place a referral:

Personal Emergency Response Systems

When you experience a fall, medical issue, or other emergency, every second counts! If you are alone, delayed medical care can jeopardize your recovery and your independence!

These units are commonly referred to as “**Lifeline**” units. These medical alert systems summon help at the push of a button from either a pendant (necklace) or wrist band (watch) which is worn at all times by the individual. These units ensure prompt, caring assistance 24 hours a day, 365 days a year. Many of these systems have add-on features which include: fall detection “auto alert,” medication dispensers, bed mats, or wander guards. Relatively new to the market are versions of this system that are compatible with cell phones. Most of these units have a one-time only installation fee, and then an ongoing monthly rental fee. Please contact the individual business to find out the specifics on their unit and/or add on features. Also, some of these companies may offer discounts, or even waive their installation fee if you tell them that the Saginaw County Commission on Aging referred you.

Physicians Who Make House calls

Do you remember “the good old days” when the doctor came to you when you were sick? Believe it or not, those good old days are still here! The following physicians provide medical care to you *when* you need it and *where* you need it. Services may be covered by Medicare, Medicaid, or other private insurances. Please contact each provider to discuss your particular insurance coverage, charges for services, deductibles and co-pays.

Medilodge of Frankenmuth	(989) 652-6101

Saginaw County Commission on Aging

Since 1973 the Commission on Aging has provided many programs and services to meet the needs of older adults in Saginaw County. Our goal is to help older adults (age 60+) to continue living independently in their own homes. Programs and services include:

Care Management – a team of nurse and social worker help families to locate and manage services needed by frail elderly persons at risk of entering a nursing home.

Caregiver Support Program – provides caregivers with skills and knowledge to better care for their loved ones. An active support group meets twice a month.

Case Management – caseworkers provide assessments, information and advocacy.

In Home Services – program provides limited assistance with homemaking, personal care, and in home respite for those who have no other supports.

Living with Alzheimer's: Early-Stage for those living with the diagnosis and their Care Partners – program is centered on the early stage of Alzheimer's disease, the questions that families face, and learning to adjust. Join us for a 4 week program that will answer the questions: What does the diagnosis mean? What kind of plans need to be made? What resources are available to help?

Project Lifesaver – a device designed to assist in the tracking and locating of people who may wander and become lost.

Meals on Wheels – homebound elderly who are unable to prepare a well-balanced meal receive a hot meal daily.

Transportation – door-to-door service is available for medical appointments, shopping, and treatment clinics. Rides must be prescheduled. Wheelchair lift service is available.

Skilled Nursing Facilities (a.k.a. Nursing Homes)

Nursing homes are facilities licensed by the Division of Licensing & Certification - Michigan Department of Public Health which provide nursing care and medical treatment. There are two types of nursing home care: “skilled” and “basic”. “Skilled” care is provided by a licensed health professional, such as a registered nurse, physical, occupational or speech therapist. This care is ordered by a doctor. “Basic” care provides assistance with a person’s activities of daily living (ADL’s), including: skin care, grooming, bathing, toileting, feeding, and mobility.

Chesaning Nursing Care Center	(989) 845-6602
Great Lakes Rehab	(989) 607-1500
HealthSource Saginaw County	(989) 790-7700

St. Francis Home	(989) 781-3150
Medilodge of Frankenmuth	(989) 652-6101
Wellspring Lutheran Home	(989) 652-9951

To search for Nursing Homes in your area based on location, compare the quality of care they provide, and their staffing: go to www.medicare.gov then click on ***“Nursing Home Compare”***

Lakeshore Long Term Care Ombudsman Program:

The Older Americans Act of 1964 created this program to help residents of long-term care facilities who have questions, concerns or complaints about the care they are receiving. Program provides objective information about services and supports to meet your needs in the setting of your choice – whether it is: a nursing home, home for the aged, adult foster care home, assisted living facility, or even in your own home. Services are provided free of charge, call **(866) 485-9393**.

*If you suspect abuse, neglect or exploitation of a resident of a nursing home by another resident, or by a nursing home employee, notify the **Bureau of Health Services Abuse Hotline**, at **(800)882-6006**.

Support Groups

A support group is a regularly scheduled gathering of people for a shared, usually burdensome life experience. Some groups meet monthly, others meet weekly, and are free and open to anyone. Support groups can have educational and/or support components and are facilitated by individuals who have received training from the Alzheimer's Association.

Living with Alzheimer's: Early-Stage for those living with the diagnosis and their Care Partners:

In the early stage of Alzheimer's disease, families face new questions as they adjust. What does the diagnosis mean? What kinds of plans need to be made? What resources are available to help? Join us to hear practical answers to the questions that arise in the early stage. Hear from those directly affected and learn what you can do to cope with the changes that come with an early-stage diagnosis. This is a four week program that takes place at the Saginaw County Commission on Aging. Call Nicole at (989) 797-6877 or The Alzheimer's Association at (800) 272-3900 for details.

Veteran's Benefits

Veterans of the United States Armed Forces may be eligible for a broad range of benefits and services provided by the U.S. Department of Veteran's Affairs (VA). These benefits include...

<i>Burial & Memorial benefits</i>	<i>Mental Health Services</i>	<i>Nursing Home Care</i>
<i>Prescription coverage</i>	<i>Preventative Health</i>	<i>Prosthetics & Sensory Aids</i>
<i>Rehab & Respite Care</i>	<i>VA Health Care Benefits</i>	<i>VA Pension</i>

Eligibility for most VA benefits is based upon discharge from active military service under other than dishonorable conditions. In order to expedite benefit delivery, Veterans seeking a VA benefit for the first time must submit a copy of their service discharge form, which documents service dates and type of discharge, or provides full name, military service number, and branch dates of service.

Our local VA is located at:

Aleda E. Lutz VA Medical Center (989) 497-2500
1500 Weiss Street, Saginaw MI 48602

One particularly helpful program to persons with memory loss and their families is the **Veterans Aid and Attendance program**. This is actually a pension which is designed to help off-set the cost of in home care services such as bathing, toileting, medication management, etc. It is a tax free benefit.

Aid and Attendance Program Basic Criteria-

- 90 days (or more) of Active Federal service
- 1 day of service during wartime (Did not need to see combat)
- Most discharges, other than dishonorable.

There are income & asset qualifications, as set forth by the VA. A surviving spouse may be eligible as well.

Obtaining VA benefits can be overwhelming and time consuming. There are places that can assist with the questions you have about the qualifications, as well as the filing of paperwork. By law, it is illegal to charge for the application or process of an application for VA benefits.

This resource guide was put together by the members of the Saginaw County Dementia Advisory Board. The Dementia Advisory Board is a program of the Saginaw County Commission on Aging. Anyone interested in working on dementia issues in Saginaw County is invited to attend our monthly board meetings.

For information call Nicole at (866) 763-6336.

On behalf of the Saginaw County Dementia Advisory Board, we would like to thank you for your interest in our resource guide. We hope that it was beneficial to you.

The information in this guide was obtained from the agency, business, or individual listed whenever possible. The Saginaw County Dementia Advisory Board makes no representation that this guide is absolutely accurate or complete. Errors and omissions, whether typographical, clerical, or otherwise, do sometimes occur. The listing of an agency is not an endorsement of its work, nor is the exclusion of an agency a disapproval of its work.

This guide is dedicated in memory of

Patricia A. Colpean

Pat was a founding member of the Saginaw County Dementia Advisory Board.

She was a very unique lady with a determined spirit. She embraced all she believed in and was a great advocate for caregivers dealing with Dementia and Alzheimer's disease.
